We aim have events and activities which are aimed specifically for children who are neurodiverse.

2. What difference do you want to make? E.g. (example)(Max 200 words)

We appreciate that galas can be noisy and chaotic and children with a neurodiversity may find this overwhelming, therefore the events we are looking to put on are to provide them with a space to be more involved, enjoy the gala and to reduce any sensory overload,

3. Why are you the right organisation to deliver this project proposal? (Max 100 words)
Our organisations have the opportunity to reach the wider communities. Many of our gala committee volunteers have lived experience of children with a neurodiversity. And therefore, have an insight and a vested interest in this.
4. Why is the project proposal needed? Please provide evidence i.e. (Max 100 Words)
We have had past feedback from residents and members of the community to say that they were unable to attend as their child would not cope with the environment and more activities were requested for children with neurodiversity.
 5. Who do you want to help? e.g. Please provide separate numbers for children, young people, working age adults, and elderly people. How will you ensure that this project proposal reaches those in your community who need it most? (Max 200 Words)
This is specific for children and young people with neurodiverse conditions. We feel it would be difficult to put a number on this, however, it would be open to all children who wish to attend.
The events/activity will be noted on our gala programme and our facebook pages so that the public are aware.
6. How many volunteers will be involved in the project proposal?
We have 36 gala committee volunteers who are in this project
7. How will you show that your project proposal has made a difference? i.e. (Max 100 Words)
We would be asking for feedback from the community and a summary of how well attended the events are from the committees.
